All Saints' Academy Mathematics KS4 Curriculum 2023-24

| Cycle | Year 10 Foundation | Year 10 Higher | Year 11 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Knowledge \& Skills | Knowledge \& Skills | Knowledge \& Skills |  |
| 1 | Algebra: <br> - Laws of Indices <br> - Multiplying linear expressions <br> - Factorising Quadratic Expressions <br> - Changing the subject <br> Number: <br> - Standard Form <br> - Error Intervals <br> - Compound Growth and Decay <br> Construction: <br> - Perpendicular bisector of a line <br> - Angle bisector <br> - Shortest distance from point to a line <br> Proportion: <br> - Simplifying ratios and sharing ratios <br> - Best buys | Algebra: <br> - Laws of Indices <br> - Multiplying linear expressions <br> - Factorising Quadratic Expressions <br> - Changing the subject <br> Number: <br> - Standard Form <br> - Indices and Surds <br> - Error Intervals <br> - Compound growth and decay <br> Geometry: <br> - Pythagoras' Theorem and 3D shapes <br> - Fractional and negative enlargements <br> - Similar Shapes and Triangles <br> - Area and Volume Scale Factor <br> Construction: <br> - Perpendicular bisector of a line <br> - Angle bisector <br> - Shortest distance from point to a line Proportion: <br> - Simplifying ratios and sharing ratios <br> - Best buys <br> - Connected Ratios | Foundation <br> - Revision and preparation for mocks | Higher <br> - Circle Theorems <br> - Quadratic Inequalities <br> - Sine and Cosine Rule <br> - Revision and preparation for mocks |
| Careers | Quantity Surveyor | Meteorologist | College options needing Mathematics | University options with Mathematics |
| 2 | Geometry: <br> - Area of rectilinear shapes, triangles and circles <br> - Sector perimeter and area <br> - Area of compound shapes <br> - Surface Area and Volume of Prisms <br> - Pythagoras' Theorem | Geometry: <br> - Spheres, pyramids, cones, frustums and composite solids <br> - Sector perimeter and area <br> - Area of compound shapes <br> Algebra: <br> - Algebraic fractions <br> - Constant of proportionality | Revision and preparation for mocks |  |

|  | Algebra: <br> - nth term of linear sequences <br> - Straight Line graphs <br> - Simultaneous Equations <br> Data Handling: <br> - Scatter graphs and Line of Best Fit <br> - averages from tables and grouped intervals | - Straight line graphs <br> - Linear and quadratic sequences <br> - Simple Geometric progressions. <br> - Linear inequalities and inequality regions <br> - Simultaneous Equations - Linear, Quadratic and Circle Equations as one of the equations |  |
| :---: | :---: | :---: | :---: |
| Careers | CAD Technician | Acoustic Consultant |  |
| 3 | Probability: <br> - Product Rule for Counting <br> - Two-way tables <br> - Venn Diagrams <br> - Tree Diagrams and Conditional Probability <br> Geometry: <br> - Angles in Polygons <br> - Trigonometry <br> Algebra: <br> - Solving Quadratic Equations algebraically and from their graphs | Algebra: <br> - Quadratic, cubic, exponential and reciprocal graphs <br> - Tangent to a circle <br> - Completing the Square <br> - Solving Quadratic Equations algebraically and from their graphs <br> Probability: <br> - Product Rule for Counting <br> - Two-way tables <br> - Venn Diagrams <br> - Tree Diagrams and Conditional Probability Geometry: <br> - Angles in Polygons <br> - Trigonometry <br> - Vectors <br> Statistics: <br> - Cumulative frequency graphs \& box plots <br> - Histograms. | Revision and preparation for final examinations. |
| Careers | Sports Science and Analysis | Statistician |  |
