All Saints' Academy Home School Agreement – 2024/25

All Saints' Academy recognises that the successful development of its students depends on an effective partnership of the Academy, students and parents/carers.

All three parties share responsibility for the development and achievement of each student. Together we commit ourselves to the following:

| | | |
|--|---|--|
| <p>The Academy will:</p> <ul style="list-style-type: none"> • Provide a learning environment that is stimulating, safe and caring. • Treat everyone with respect. • Ensure that each student has the opportunities, <u>support</u> and guidance to achieve their full potential. • Report regularly on each student's progress. • Expect high standards, set clear rules, promote mutual <u>respect</u> and develop a sense of responsibility. • Keep parents informed about Academy matters, be welcoming to enquiries and responsive to concerns. • Set homework in line with the published <u>timetable</u>, and give feedback on tasks completed. • Record and reward good progress and performance. • Offer enrichment activities that will develop broader skills to prepare for life and the world of work. | <p>Parents/Carers will:</p> <ul style="list-style-type: none"> • Make sure their child attends in correct uniform, arrives on time and is properly equipped. • Encourage their child to work hard and support them in their homework. • Attend consultation evenings and discussions about their child's progress. • Support the Academy's policies and guidelines as published on the Academy website. • Allow their child to attend off-site visits during the day. • Agree to the sanctions system as set out in the Academy Ready to Learn Policy. • Ensure their child attends every day and that time out of school is not taken or requested, unless for an urgent reason. • Inform staff, if they have concerns about their child's <u>progress, well-being</u> or any other issues. • Encourage their child to participate in the enrichment opportunities offered by the Academy. | <p>Students will:</p> <ul style="list-style-type: none"> • Be an ambassador for All Saints' Academy. • Work hard in class and at home to achieve their full potential. • Treat others as they would wish to be treated and live out the Academy values. • Attend the Academy in correct uniform, be on time and properly equipped. • Keep the Academy rules, behave responsibly and be polite to others in the Academy, and in the wider community. • Follow the Ready to Learn Policy, completing any sanctions set and striving to achieve rewards each week. • Understand that any misbehaviour in the community whether in uniform or not, will be treated as if the incident happened in the Academy. • Take part in enrichment activities offered by the Academy. • Care for the environment in and outside the Academy. |

Why study?

All students study because they value opportunities to learn and improve.

All students understand that in order to make excellent progress towards bright futures, they need to take responsibility for their own success and study at home as well as at the Academy.

We want you to have the very best opportunities available to you when you leave the Academy. Achieving excellent exam results in Year 11 and Year 13 is one way to help you to do that.

To gain excellent exam results in Year 11 and Year 13, you need to work hard in school every single lesson, every day in Year 7, 8, 9, 10 and 11. If you are in the Academy every day for 5 years you will have 4,750 hours of study time.

We want to make it as easy as possible for you to complete your study away from the Academy. Completing one hour of study per evening at home adds up to an extra 950 hours over your five years with us – which is like having an extra year of learning.

When and what should I study?

You should complete your Independent homework timetable on page 3, so that you know when to study.

Year 7, 8 and 9 should be completing one hour of homework each evening.

Year 10 and 11 should be completing two hours of homework each evening.

How should I use my Knowledge Organiser to study?

1. Look, Say, Cover, Write, Check.

Look at the next page for more details on how to do this correctly.

2. Explain it.

Read the page. Turn it over and then explain what you have just read to a family member or even the dog.

5. Flash Cards.

Cut up one piece of A4 paper in to 8 equal rectangles. Create 8 flashcards. (write a keyword or question on one side and a definition or answer on the other). Ask someone to test you on them.

Tasks you can do to help you learn your subject knowledge

4. Test it.

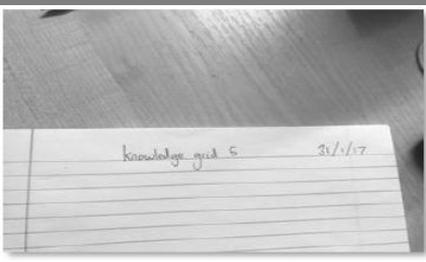

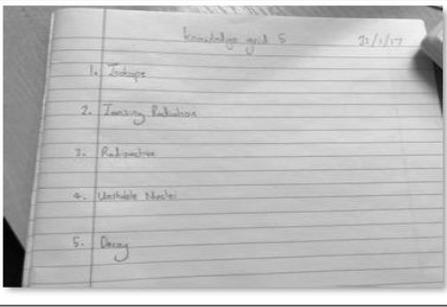

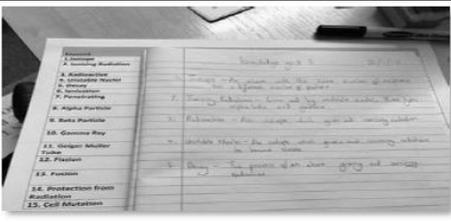

Ask someone to test you using your quiz questions. You can do this verbally.

3. Quiz it.

Write a quiz on the facts. Create between 7-10 questions on the information you have read. Then on the back write down what the answers would be.

How should I use my Knowledge Organiser to study?

Look, Say, Cover, Write, Check

| | | |
|---------------|---|--|
| <p>Step 1</p> |  | <p>1) Write the date and the title from the knowledge organiser. Underline them.</p> |
| <p>Step 2</p> |  | <p>2) Write out the keywords you have been asked to learn, leaving two lines between each word.</p> |
| <p>Step 3</p> |  | <p>3) Cover the definitions apart from the first: read it, cover it, say it in your head, check it until you are confident with it. Repeat this process with the other words and take your time.</p> |
| <p>Step 4</p> |  | <p>4) Cover up each definition in turn and write them out from memory. Avoid cheating as you need to know how much you can remember. Don't expect yourself to get it exactly right first time.</p> |
| <p>Step 5</p> |  | <p>5) Correct your answers in green pen. Repeat the process.</p> |

SPAG: Spelling, Punctuation and Grammar

Punctuation

Sentence demarcation:

| Symbol | Name | Use |
|--------|------------------|---|
| A, N | Capital letters | To start a sentence. |
| . | Full stop | To show a point/ idea is finished. |
| ! | Exclamation mark | To illustrate heightened emotions, either positive or negative |
| ? | Question mark | To illustrate a question is being asked. |
| ... | Ellipsis | To build tension at the end of sentence or to leave a sentence unfinished for effect. |

In sentence punctuation:

| Symbol | Name | Use |
|--------|--------------|--|
| , | Comma | Following an adverb or connective which starts a sentence or to join a subordinate and main clause together. |
| “ ” | Speech marks | To indicate the start and end of direct speech. |
| () | Brackets | To put additional information into a sentence. |
| ' | Apostrophe | To show a contraction (joining of two words) or omission (taking out of a letter). |

Ambitious punctuation:

| Symbol | Name | Use |
|--------|------------|---|
| . | Colon | To show the start of a list or to show important information. |
| ; | Semi colon | To separate long items in a list or to join to simple sentences that are linked by meaning. |

Grammar rules

Sentence construction:

All sentences need a subject, verb and an object.

Tense:

Past- Was/ Were
Present- Is/Am
Future- Will

Singular and Plural:

I was...
We/ they were....

Capital Letter Rules:

Start to a sentence.
Proper nouns.
Titles of books, films etc.
Days of the week.
Months of the year.
Religious deities.
I/ I'm/ I'd/ I've.
Historical periods/events.

Homophones

Their- belonging to them.

There- a position or place.

They're- contraction for they are.

Witch- a person with magic powers.

Which- a question word.

Were- past tense of was.

We're- contraction for we are.

Its- belonging to something.

It's- contraction for it is.

Toe- a part of the body.

Tow- to pull something along.

Hole- a hollow place in a solid body.

Whole- all of something.

Year 7 - Choices and Consequences- Our Day Out

| Characters | Plot Summary | Context |
|---|--|--|
| <p>Mrs Kay - The leader of the trip and the teacher of the Progress Class. She is liberal in her views towards education and loves the children.</p> <p>Mr Briggs - The deputy head. He is a strict teacher and has grown to dislike children.</p> <p>Colin - A young and trendy teacher who is the romantic focus of some of the girls. He struggles with this.</p> <p>Susan - a young female teacher. The older boys fancy her.</p> <p>The Driver - gets taken in by the sob stories from the teachers.</p> <p>John and Mac - They run the sweet shop; they discriminate against the kids and then are robbed.</p> <p>Mrs Roberts - café owner.</p> <p>Carol - A young girl who struggles at school and dreams of a better life but knows that it will never happen.</p> <p>Digga - An older boy and former Progress student. He is a bit of a bully and makes nasty comments to the younger teachers.</p> <p>Reilly - Digga's sidekick.</p> <p>Linda - An older girl, quite tough. She flirts with Colin.</p> | <p>The play opens with a girl, Carol, walking to school; she is obviously from a poor background having a carrier bag to take her things to school in.</p> <p>Mrs Kay is in charge of the Progress Class and she is taking her students, including Carol, on a day trip to Conwy Castle in North Wales. For many of the children, this will be their first 'day out' ever. Susan and Colin, two younger teachers, are also going. Briggs, the Deputy Head, disapproves of the trip and invites himself along to supervise. Two older boys, Reilly and Digga, also talk their way onto the trip.</p> <p>The coach tries to stop at café where the owner pretends it is closed. Eventually, they stop at the services and the children steal from the owner, helping themselves to sweets from the counter. Mrs Kay asks the driver to pull in at the zoo. Briggs starts to warn to some of the children and offers to give a talk to the Progress Class on their return to school. The children enjoy it too much and try to steal animals from the zoo.</p> <p>At the castle, Briggs confronts Mrs Kay and tells her they are cutting the trip short. He accuses her of being on the side of the children and she agrees that she is. Despite this, the students really seem to enjoy their time at Conwy Castle and learn a lot. Mrs Kay rebels against Briggs and tells the children they are going to the beach.</p> <p>At the beach the children have a game of football and run around. Digga makes suggestive comments to Susan, and she confronts him, suggesting he'd be better off with Linda. Carol goes missing. The adults split up to look for her. Briggs finds her on the cliff top and confronts her. She accuses him of hating the kids and he realises how mean he has been. He saves her from falling and takes her back to the beach.</p> <p>Briggs insists on a trip to the fair and the day finishes on a high note, having fun and relaxing with the students. Upon return to school, Briggs destroys Mrs Kay's camera film to hide the evidence.</p> | <p>Our Day Out was written by Willy Russell in 1977, and like many of his other plays is centered around issues of social class.</p> <p>It is set in Liverpool and focused on highlighting some of the issues <u>faces</u> by the working classes at the time.</p> <p>Russell was a teacher at <u>Shorefield's Comprehensive</u> before he became an author and used a school trip he went on as inspiration for the play.</p> |

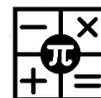

| Subject terminology | Themes | Stretch and Challenge Activities: | Key Words |
|--|---|--|---|
| <p>Word Classes: Pronoun: A word that replaces a noun in a sentence. Example: <u>She</u> walked to school. Proper Noun: Specific name of a person or place. Example: In <u>London</u> you can see the sights. Concrete Noun: A material item. Example: The <u>hat</u> was red. Abstract Noun: An idea, quality, or state. Example: I am <u>hungry</u>. Comparative Adjective: Used to compare differences between two objects. Example: John is taller than Peter. Superlative Adjective: Used to describe the most or least something can be. Example: John is the <u>tallest</u>. Modal Verb: Used to describe possibility of something happening. Example: I <u>will</u> leave one day. Dramatic Features: Stage Direction- More information about how things are done/ said on stage. Foreshadowing- Giving hints/ clues about what will happen later in the story. Monologue- an extended speech from one character. Montage-A series of different scenes put together to show passage of time.</p> | <p>Poverty- The play explores the impact poverty has of life chances and expectations of those from areas of social deprivation. Education- The children have been failed by the education system that doesn't seem to care whether they achieve or not. None of the children are unintelligent, yet they find school challenging. Growing Up- Digga and Linda both develop through the course of the day and end as young adults with uncertain futures. Stereotyping- Some of the adult characters have an inaccurate view of the children that is based on where they come from and not who they are. Class- There is a clear divide between the middle-class Briggs and the working-class children. He looks down on them and is surprised when they show an interest in different things. The driver and other characters are used to only working with the "good schools". Friendship- The importance of friendships between the different groups of children are explored; the play also deals with the positive effect friendship can have on them. Choices and consequences- Different choices and their impact/ consequences are explored through a range of characters.</p> | <p>Write a review of the play. Imagine that you are Carol's mother- Write a letter to the school complaining about what happened on the trip. Research the 1970s in Northern England. Can you identify 3 differences between this society and today's society? Write your own play about a problem at school.</p> | <p>Prejudice- dislike, hostility, or unjust behaviour deriving from preconceived and unfounded opinions. Persecution- persistent annoyance or harassment. Social class- the position you are in within society based on your financial position. Progress Class- a class which contains students with special educational needs. Poverty- having a lack of necessities. Disadvantage- being in an unfair position compared to someone else based on something out of your control. Conwy- a place in Wales. Discrimination- treating someone badly because of something about them they can't control.</p> |

| Word | Definition | Example |
|--------------------|---|--|
| Fraction | A part of a whole, expressed as numerator/denominator. | $1/2$ is a fraction representing half. |
| Numerator | The top number in a fraction, showing how many parts are taken. | In $3/4$, 3 is the numerator. |
| Denominator | The bottom number in a fraction, showing total equal parts. | In $3/4$, 4 is the denominator. |
| Mixed Number | A number made up of an integer and a fraction. | $2 \frac{1}{2}$ is a mixed number. |
| Common Denominator | A shared denominator used to compare or add fractions. | To add $1/3$ and $1/4$, use 12 as a common denominator. |

7.3 Numbers

| Word | Definition | Example |
|--------------------|---|--|
| Natural Numbers | Counting numbers starting from 1 (sometimes 0). | 1, 2, 3 are natural numbers. |
| Integers | Whole numbers including negatives, zero, and positives. | -3, 0, 4 are integers. |
| Rational Numbers | Numbers that can be expressed as a fraction of integers. | $1/2$ and 0.75 are rational numbers. |
| Irrational Numbers | Numbers that cannot be expressed as a fraction of integers. | $\sqrt{2}$ and π are irrational numbers. |
| Prime Numbers | Numbers greater than 1 with only two factors: 1 and itself. | 2, 3, 5 are prime numbers. |

8.7 Directed Numbers

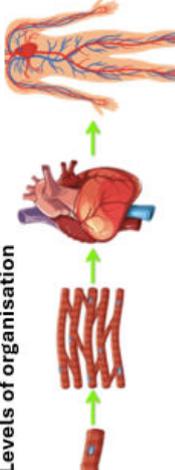

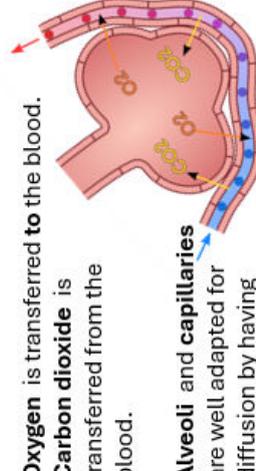

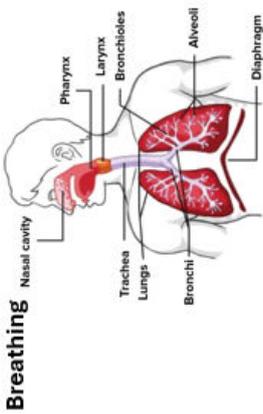

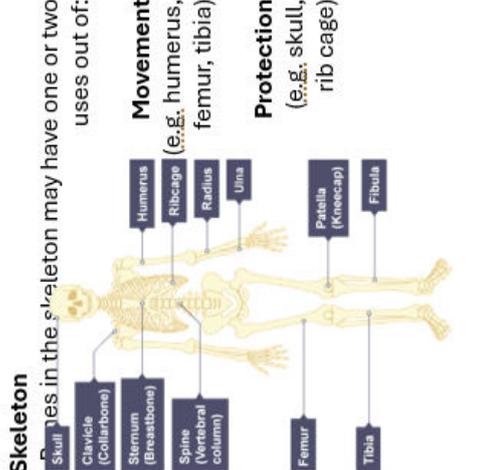

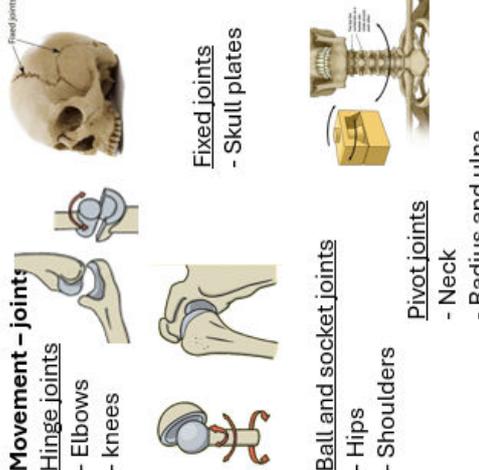

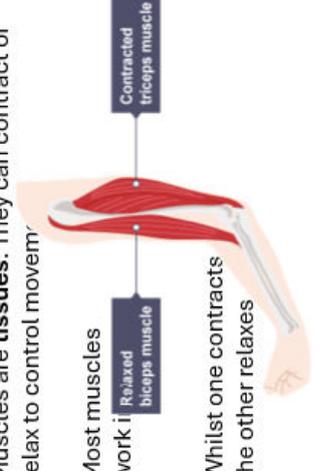

| Word | Definition | Example |
|-----------------------|--|---------------------------------|
| Directed Numbers | Numbers with a sign indicating direction or value. | -5 and +3 are directed numbers. |
| Negative Number | A number less than zero. | -7 is a negative number. |
| Positive Number | A number greater than zero. | 8 is a positive number. |
| Multiplying Negatives | Rule: Negative \times Negative = Positive. | $(-3) \times (-4) = 12$. |
| Dividing Negatives | Rule: Negative \div Negative = Positive. | $(-12) \div (-3) = 4$. |

| Cycle 1 | <p>Science skills How to be safe in a lab. Key skills.</p> <p>Biology - Cells Plant and animal cells.</p> <p>Chemistry - Particle model States of matter and changes of state.</p> <p>Physics - Forces Types of forces. Balanced and unbalanced forces.</p> | British Science Week Science club | <p>Biology - Health & lifestyle Effects of diet and smoking</p> <p>Chemistry - The periodic table How we organise the elements.</p> <p>Physics - Electricity & magnetism Circuits, electrical components, magnets and electromagnets.</p> | British Science Week Science club | <p>Biology - Inheritance Genes, DNA and natural selection.</p> <p>Chemistry - The Earth The structure of the Earth, rocks and climate.</p> <p>Physics - Motion How and why do things move. Measuring speed.</p> | FameLAB Academy (Science presentation competition) British Science Week |
| Cycle 2 | <p>Biology - Body systems The parts of the body and their functions.</p> <p>Chemistry - Atoms, elements and compounds, and chemical reactions What everything is made from and how certain chemicals combine.</p> <p>Physics – Sound and Light Sound and light as waves and their properties.</p> | British Science Week Science club | <p>Biology - Biological processes Respiration and photosynthesis.</p> <p>Chemistry - Separation techniques Filtration, evaporation and chromatography.</p> <p>Physics - Energy Energy stores and transfers. Energy resources.</p> | British Science Week Science club | <p>Biology – Biological processes Aerobic and Anaerobic respiration Factors affecting photosynthesis.</p> <p>Chemistry – Chemical reactions Word and symbol equations. Conservation rules.</p> <p>Physics – turning forces Force multipliers and moments</p> | FameLAB Academy (Science presentation competition) British Science Week |
| Cycle 3 | <p>Biology - Reproduction How animals and plants reproduce. The menstrual cycle.</p> <p>Chemistry - Acids and alkalis The pH scale. Neutralisation and making salts.</p> <p>Physics - Space What's out there. Why we have day and night and the seasons.</p> | Science club | <p>Biology - Ecosystems and adaptation Organisation of ecosystems. Importance of biodiversity.</p> <p>Chemistry - Metals and other materials Properties and uses of metals and other materials.</p> <p>Physics - Pressure Pressure in solids, liquids and gases. Calculating pressure.</p> | Oxford museums trip Science club | <p>GCSE Biology introduction - cells and organisation Organelles in cells, complexity of the body.</p> <p>GCSE Chemistry introduction - atomic structure Protons, neutrons and electrons</p> <p>GCSE Physics introduction - energy Energy stores, transfers and equations</p> | STEM trip |

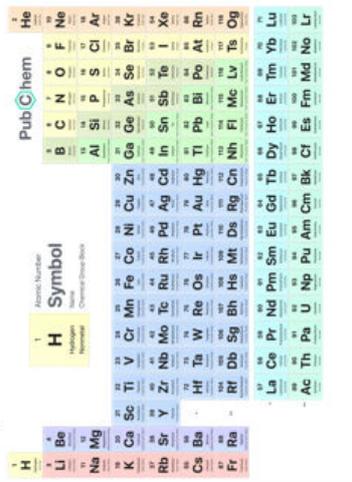

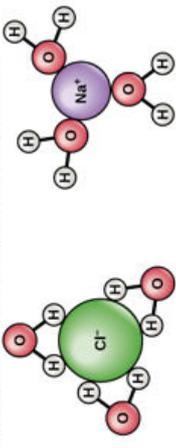

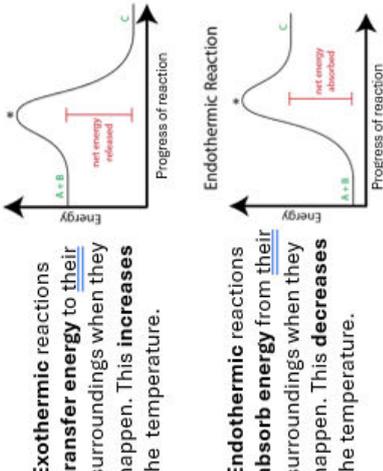

Year 7 – Science – Cycle 2

Biology – Body systems

| | | | |
|--|---|--|---|
| <p>Levels of organisation</p>  <p>Cell Tissue Organ Organ system</p> <p>Lots of the same type of cell together make a tissue.</p> <p>Different tissues working together make an organ.</p> <p>Different organs working together make an organ system.</p> <p>An organism is made up of several organ systems.</p> | <p>Organs</p> <p>Stomach – digests food</p> <p>Liver – Removes toxins from our blood</p> <p>Large intestine – removes water from digested food.</p> <p>Heart – pumps blood around the body</p> <p>Lungs – Where gas exchange takes place and needed to breathe</p> <p>Bladder – stores and releases urine</p> <p>Kidneys – Filter waste from the blood</p> <p>Brain – controls the rest of the body</p>  | <p>Gas exchange</p> <p>Gas exchange happens in the lungs between structures called alveoli and small blood vessels called capillaries.</p> <p>Oxygen is transferred to the blood.</p> <p>Carbon dioxide is transferred from the blood.</p> <p>Alveoli and capillaries are well adapted for diffusion by having thin walls and large surface areas.</p>  | <p>Breathing</p>  <p>Inhalation - Breathing in – chest cavity expands – lowers pressure in the lungs and air is forced in.</p> <p>Exhalation – Breathing out – chest cavity contracts – increases pressure in the lungs and air is forced out.</p> |
| <p>Skeleton</p> <p>Bones in the skeleton may have one or two uses out of:</p> <p>Movement (e.g. humerus, femur, tibia)</p> <p>Protection (e.g. skull, rib cage)</p>  | <p>Movement – joints</p> <p>Hinge joints</p> <ul style="list-style-type: none"> - Elbows - knees <p>Fixed joints</p> <ul style="list-style-type: none"> - Skull plates <p>Ball and socket joints</p> <ul style="list-style-type: none"> - Hips - Shoulders <p>Pivot joints</p> <ul style="list-style-type: none"> - Neck - Radius and ulna  | <p>Movement – muscles</p> <p>Muscles are tissues. They can contract or relax to control movement.</p> <p>Most muscles work in antagonistic pairs.</p> <p>Whilst one contracts the other relaxes.</p> <p>These are called antagonistic pairs.</p>  | <p>Sports and injuries</p> <p>Ligaments attached bones to other bones.</p> <p>Tendons attach muscles to bones.</p> <p>Our bodies allow us to partake in lots of different sports.</p> <p>Injuries (whether in sports or otherwise) might include:</p> <ul style="list-style-type: none"> Strains – A stretch or tear of a muscle or tendon. Sprains – A stretch or tear of a ligament. Fractures – What we often call a broken bone. |

Year 7 – Science – Cycle 2

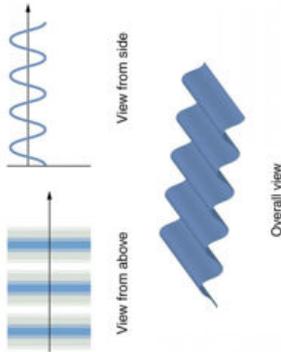

Chemistry – Atoms, elements and compounds and chemical reactions

| | | | |
|--|---|--|---|
| <p>Atoms</p> <p>Atoms are the building blocks of all matter. Everything is made of atoms - even yourself.</p> <p>Atom is made up of two words: 'A' - which means 'not' and 'Tomos' - which means 'to cut'</p> <p>So atom means 'not cuttable' or indivisible.</p> <p>Atoms are the smallest unit of matter</p> | <p>Elements</p> <p>Elements are substances made of just one type of atom. They cannot be broken down into anything other than themselves.</p> <p>Elements include:</p> <p>Gold (Au) Aluminium (Al) Carbon (C) Oxygen (O) Helium (He) Calcium (Ca)</p> <p>There are approximately 100 different elements.</p> <p>Each has its own symbol. Some make sense in English, like H for Hydrogen. Some don't, like Fe for Iron.</p> | <p>The periodic table</p>  <p>A map of all of the elements. Ordered by their properties in groups (vertical columns) and periods (horizontal rows).</p> | <p>Compounds</p> <p>When two or more different atoms (that is atoms of different elements) chemically join together, they form a compound.</p>  <p>Chemical formulae</p> <p>We can write the names of compounds using the chemical symbols.</p> <p>For example, Carbon Dioxide is made from 1 Carbon atom and 2 Oxygen atoms, so its formulae is CO₂.</p> |
| <p>Chemical reactions</p> <p>To make or break a compound a chemical reaction must take place. They are often irreversible and there will be a visible change.</p>  <p>Word equations</p> <p>Chemical reactions can be represented as an equation in words, but using a \rightarrow instead of =</p> <p>Magnesium + Hydrochloric acid \rightarrow Copper chloride + Hydrogen</p> <p>Reactants are on the left and products are on the right</p> | <p>Burning fuels</p> <p>This is called combustion. It allows us to cook, heat our homes and propel our transport.</p> <p>Combustion is an example reaction. The products are usually carbon dioxide and water. E.g:</p> <p>Butane + oxygen \rightarrow carbon dioxide + water</p> <p>Thermal decomposition</p> <p>Thermal = heat Decomposition = break down So thermal composition is where a compound is broken down using heat.</p> | <p>Conservation of mass</p> <p>This is a science law, a rule that always applies.</p> <p>The law of conservation of mass states that during a chemical reaction or a change of state no atoms are created or destroyed, so the mass before is the same as the mass after.</p> <p>mass of reactants = mass of products</p> | <p>Exothermic and endothermic reactions</p> <p>Exothermic reactions transfer energy to their surroundings when they happen. This increases the temperature.</p> <p>Endothermic reactions absorb energy from their surroundings when they happen. This decreases the temperature.</p>  |

Year 7 – Science – Cycle 2

Physics – Waves: Sound and light

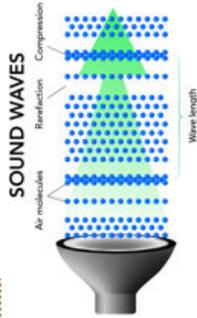

Waves

Waves transfer **energy not matter**.
 Examples of waves include water waves, sound waves and light.
 Two waves can occupy the same space at the same time and add or cancel. This is called **superposition**.

Sound

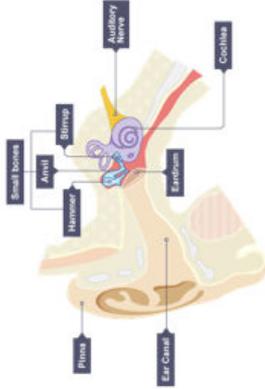

Sound travels as a **longitudinal** wave. It is a **mechanical** wave and required particles to vibrate and contact each other in order to be transmitted.

Loudness is determined by **amplitude**.
 Pitch is determined by **frequency**.

Detecting sound

The vibration of sound waves can be transferred to our ears.

Our ear drum vibrates at the same **frequency** of the detected sound.
 Damage to our ear drum or other parts of our auditory system can lead to hearing loss.

Light

The **speed of light** is the speed limit of the universe **300 000 000 m/s**.

Light is a **transverse** wave. It does **not** require particles to be transmitted and so can travel in a **vacuum**.

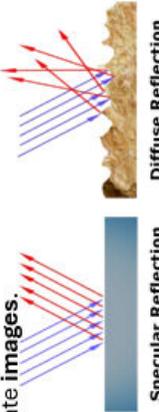

When light hits a **surface** it can do one or more of three things:

- **Transmit** – pass through, either directly or with some **refraction**.
- Be **absorbed** – transfer energy to the surface.
- **Reflect** – bounce off the surface

Reflection

All waves reflect. Light waves reflects off surfaces and enters our eyes, allowing us to see them.

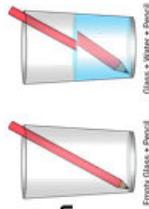

We are used to seeing reflections in light. These reflections are due to **specular reflection** off a smooth surface, which create **images**.

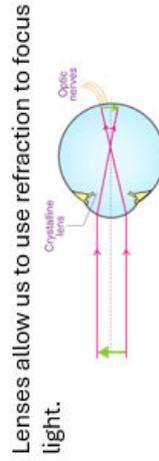

Diffuse scattering occurs on rough surfaces, showing colour but no image.

Refraction and lenses

Refraction is where a wave **changes direction** as it enters a new **medium**, due to a change in speed.

Refraction happens in all waves and is a useful property for us in light.

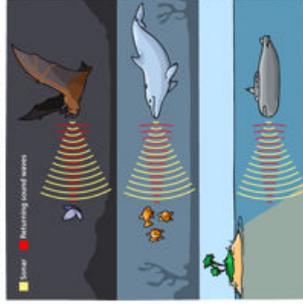

Lenses allow us to use refraction to focus light.

Echoes and ultrasound

When a sound wave **reflects** (bounces off a surface) we get an echo.

Humans and animals can use the echoes to calculate distances.

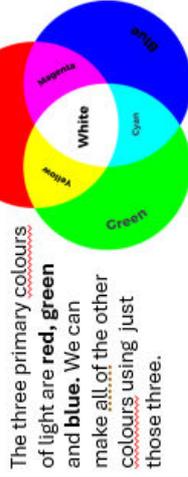

Echolocation and SONAR

Ultrasound

Colour

White light is made up of all the **colours** of the rainbow. We can see this by refracting light through a prism.

The three primary colours of light are **red, green** and **blue**. We can make **all** of the other colours using just those three.

Coloured **filters** only **transmit** their colour of light, **absorbing** all of the others.

Coloured surfaces only **reflect** their colour of light, **absorbing** all the others.

Art Key Stage 3 Curriculum 2025-2026

| | Year 7 | | | Year 8 | | | Year 9 | | |
|---------|--|--|--|---|---|--|---|---|--|
| | Knowledge and skills. | Enrichment | Cross-curricular | Knowledge and skills | Enrichment | Cross-curricular | Knowledge and skills | Enrichment | Cross-curricular |
| Cycle 1 | <p>Still Life Baseline test. Observational drawings in pencil, biro and other mixed media Assessment: Biro pepper study. Mixed media shell study</p> | <p>KS3 Art club. Various topics including reference to remembrance</p> | <p>Numeracy skills – symmetry, using rulers to draw a grid, geometric shapes</p> | <p>Body Art History of tattoos and Celtic design. Henna design and gutta pen outcome. Rose designs in mixed media. Skull and flower final piece. Assessment: Skull and flowers final piece.</p> | <p>KS3 Art club. Various topics including reference to Black history month.</p> | <p>Numeracy - using grid to draw skull. Geography - Cultures</p> | <p>Cultures/ beliefs-mask project. African mask- baseline tonal study. Polynesian mask- pencil crayon tonal and pen pattern work. African <u>4 way split</u> mask- multimedia. Assessment: African <u>4 way split</u> mask study.</p> | <p>KS3 Art club. Various topics including reference to Black history month.</p> | <p>DT- Culture, Year 8, Cycle Geography- Natural disasters. Year 8 Cycle 1.</p> |
| Cycle 2 | <p>Colour Theory The colour wheel watercolour mixing sheet. Artist research page for Keith Haring. Colour theory painting. Analysis of a Keith Haring painting. Create own response to artist's work using the sgraffito technique.</p> | <p>KS3 Art club. Various topics.</p> | <p>Science – how our eyes perceive colour</p> | <p>Tim Burton and German Expressionism Tim Burton characters- pen. Lettering styles. | | | | | | | | | | | |
|---------|---|--|---|---|--|---|--|---|--|--|
| | Investigate the graffiti vs vandalism debate. Graffiti lettering tag design. Assessment: Tag design | | | | | | | | | |
| Cycle 3 | <p>Landscapes & Surrealism Van Gogh experiment samples, artist study and research Create mixed media landscape study from own photo using Van Gogh's techniques.</p> <p>Surreal collage and computer mirroring effect</p> <p>Assessment: Van Gogh style mixed media landscape from own photo</p> | KS3 Art club. Various topics including reference to sustainability, 'World Earth Day'. | DT and Maths – perspective drawing. Surrealism in Art History | <p>Architecture. 1 point perspective drawing. 2-point perspective drawing. Marc Allante research page. Marc Allante style painting. Cheism research page. Cheltenham cityscape collage. Drawing in the style of Cheism. Clay tile or building.</p> <p>Assessment: Perspective drawing.</p> | KS3 Art club. Various topics including reference to sustainability, 'World Earth Day'. | <p>Food. Ron Magnes Artist research, including analysis. Food Collage. Felt tip development from Food Collage. Monoprint. Stippling and watercolour on monoprint.</p> <p>Assessment: Ron Magnes style study.</p> | KS3 Art club. Various topics including reference to sustainability, 'World Earth Day'. | DT- World Food, Year 9, Cycle 2. Science- Diet Year 7 and 8, Cycles | | |

Year 7 Art Knowledge Organiser – Cycle 2 – Colour Theory

| Key vocabulary to learn | |
|-------------------------|---|
| Primary | 3 base colours, which mix to make all other colours: Red, Yellow & Blue. Equally spaced apart on the colour wheel. |
| Secondary | A colour made from mixing two Primary colours together. Orange, Purple & Green. Found between the 2 primary colours that make them. |
| Tertiary | The resulting colour formed by mixing equal amounts of a Primary & Secondary colour. Found between those colours. |
| Harmonious | Colours that sit next to each other on the colour wheel. These go well together because they are similar. |
| Complementary | Colours that are directly opposite each other on the colour wheel. The pair consists of 1 Primary and 1 secondary colour. They go well together because they are different. |
| Monochromatic | One colour mixed with black and white to create tints and shades. |
| Tints | Add white to a colour to make lighter highlights. |
| Shades | Add black to a colour to make darker shadows. |
| Hot/Warm | Bold colours which usually consist of reds, oranges and yellows. |
| Cold/Cool | Calm colours which usually consist of purples, blues and greens. |
| Colour mixing | Using the rules of colour theory to mix and create new colours. |
| Colour blending | The act of mixing two or more colours together thoroughly with no visible join or 'step'. |
| Colour gradient | A set of colours arranged in a linear order, like a sunset. |

Stretch and challenge
Try colour mixing in a range of different materials and apply tone to your drawings through colour (biro, paint, colour pencils etc)

Wider Thinking
Which artists and designers have used **Pop Art** to inspire their art and design work? **Jasper Johns & Andy Warhol** for example.

What am I looking for in your mixed-media drawings

- Success criteria:**
1. You will be able to fill in all of the sections on the colour wheel
 2. You will successfully identify different colour theory terms and definitions.
 3. You will apply colour to the colour wheel in the correct places.
 4. All pencil colour will be applied smoothly with no harsh marks.
 5. All watercolour will be well mixed with no bleeding of colour.
 6. Your work will be neatly presented.

Movement – Fauvism

Fauvism is the name applied to the work produced by a group of artists from around 1905 to 1910, which is characterised by strong colours and fierce brushwork. The Fauvists were interested in the scientific colour theories developed in the nineteenth century – particularly those relating to **complementary colours**.

Checklist:

| | |
|----------------------|--------------------------|
| Knowledge test | <input type="checkbox"/> |
| Colour mixing skills | <input type="checkbox"/> |
| Blending skills | <input type="checkbox"/> |
| Jasper Johns study | <input type="checkbox"/> |
| Art vocabulary | <input type="checkbox"/> |

Year 7 Art Knowledge Organiser – Homework Tasks

Task 1 – Creative colour wheel

Create a colour wheel showing a minimum of 6 colours in a way other than drawing it.

Be as creative as possible!

Instructions:

1. Choose your material
2. Identify 6 or more colours – 3 primary, 3 secondary (stretch yourself and add tertiary!)
3. Construct your scale in your own way – think outside the box!

Task 2 – Colour theory Quiz

Complete the Colour Theory Quiz on [Satchel:One](#)

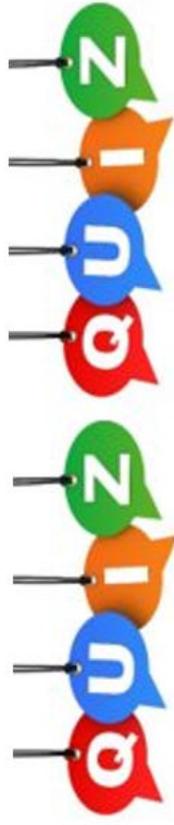

Task 3 – Henri Matisse research page

Create a visual research page about Henri Matisse. Present your work on an A4 sheet of cartridge paper. You will need to add a drawing sample of one of the artists pieces of work to show your understanding of the Artists techniques.

1. What is the artwork (landscape, portrait, still life etc) and who is it by?
2. What style is it? (realistic, cartoon, abstract etc)
3. How has the artwork been created? Say as much as you can (research on the internet)
4. What formal elements does it show? (colours, highlights, shadows, textures)?
5. What do the different shades or colours do in the image?
6. What is your opinion of it and why?
7. What do you think the artist was trying to do? (you may have to do some research on the internet)
8. Do you think the artist was successful?

Task 4 – Fauvism Quiz

Complete the Fauvism Quiz on [Satchel:One](#)

Quiz: Colour Theory

Quiz: Fauvism

Henri Matisse research page

Creative colour wheel

Year 7 Computer Science Knowledge Organiser | Cycle 2 – EduBlocks / Networks

EduBlocks

What is EduBlocks?

EduBlocks is a tool that helps anyone learn how to code with text-based languages like Python using a familiar drag-and-drop blocks system.

Why should I learn to code?

it builds valuable problem-solving, logical, and creative skills applicable to any field, unlocks high-paying, flexible career opportunities, helps you automate tasks, and provides a deeper understanding of the technology shaping our world, making you more empowered and employable

Key vocabulary to learn

Algorithm - A set of instructions to solve a problem.
Sequence - Instructions in a specific step-by-step order.
Selection - Using logical tests to change the flow of the sequence.
Variable - A named storage location for data that can change.
Loop/Iteration - Repeating a block of code.
Boolean - A data type with only true or false values.
Debugging - Finding and fixing errors (bugs) in code.

Networks

Why networks?

Imagine a world without computer networks, and how different your life would be. There would be no more YouTube, Google, instant messaging, online video gaming, Netflix, or iTunes. There would be no online shopping or quickly looking up directions to a location at the click of a button. There would be no more sharing of files or peripherals, such as a printer, and no more central backups of information. As networks have evolved, society has become increasingly reliant on the services that they provide. They have changed the way we learn, work, play, and communicate.

What will we learn?

- Define a network
- Address the benefits of networking
- How data is transmitted across networks using protocols
- The types of hardware required
- Wired and wireless data transmission

Key vocabulary to learn

Network - Interconnected devices sharing data.
Protocol - Rules for communication.
Router - Connects different networks.
Bandwidth - The maximum data transfer rate of a network.
Internet - A worldwide network of computers.
IP Address - Unique numerical label for a device
Packet - A small chunk of data sent across a network.

KS3 Performing Arts - Drama Curriculum Plan – 2025-2026

| Cycle | Year 7 (1 lesson a Week) | | | Year 8 (1 lesson per 2 weeks) | | | Year 9 (1 lesson per 2 weeks) | | |
|-------|---|---|---|---|---|--|--|--|------------------|
| | Knowledge and skills | Enrichment | Cross-Curricular | Knowledge and skills | Enrichment | Cross-Curricular | Knowledge and skills | Enrichment | Cross-Curricular |
| 1 | <p>Showing successful Silent Movie strategies</p> <p>Developing key performance skills through silent movies – Facial expression, body language, movement and mime.</p> <p>Assessment: Mid Cycle: Silent Movie Showcase</p> <p>Pantomime In this topic the students will learn about the key features of a pantomime, stock characters and the traditions of pantomime. They will continue the development of their performance skills, with particular focus on voice.</p> <p>Assessment: End of Cycle: Pantomime Scripted Assessment: The students will perform a stock character from a panto.</p> <p>Careers: Actor/ Actress, Silent Movie Writer, Playwright, Historian, Historian, Leadership, Teaching, Pantomime Director, Pantomime Producer.</p> | <p>Drama club</p> <p>KS3 Christmas Service</p> <p>Shakespeare School's Festival</p> <p>Academy</p> <p>Musicals</p> | <p>Music: Using Music in performance.</p> <p>Film: History of films</p> <p>English: Shakespeare stories:</p> | <p>Melodrama To understand the key conventions and skills required to perform a melodrama. The students will have learnt skills through the pantomime unit in Year 7, that greatly link to melodrama.</p> <p>Assessment: End of Cycle: Students will devise their own Melodrama performance using the stereotypical characters presented in a melodrama.</p> <p>Careers: Set Designer, Lighting Designer, Costume Designer, Playwright, Dramaturg, Theatre Practitioner, Stage Manager, Director and Producer, Live Theatre Review Author.</p> | <p>Industry talks and 'Spill the Tea' career podcasts.</p> <p>Drama Club</p> <p>KS3 Christmas Service</p> <p>Shakespeare's School's Festival</p> <p>Academy Musical</p> | <p>Film: Melodrama analysis</p> <p>History: Historical research of Melodrama.</p> <p>English: Script work</p> | <p>Verbatim and Documentary Theatre Emotionally engaging an audience by responding to a factual event as a form of stimulus.</p> <p>Assessment: Final: Verbatim Showcase</p> <p>Careers: Set Designer, Lighting Designer, Costume Designer, Playwright, Dramaturg, Theatre Practitioner, Stage Manager, Director and Producer, Videographer, Screenplay Writer,</p> | <p>Drama Club</p> <p>Fundraising for Breck's charity.</p> <p>Shakespeare School's Festival</p> <p>KS3 Christmas Service</p> <p>Academy Musical</p> | |

| | | | | | | | | | |
|----------------|---|--|---|---|---|--|---|---|--|
| <p>Cycle 2</p> | <p>Styles of Theatre Applying key performance skills to explore a variety of different theatre styles.</p> <p>Mid Cycle: Assessment: To create a performance of a well-known fairy-tale in their own unique style of theatre.</p> <p>Careers: Presenter, Storyteller, Author, Playwright, Performer, Theatre Manager, Pantomime Director, Pantomime Producer, Audience interaction Officer, Film Composer, Music critic.</p> <p>Shakespeare To understand to key features of a Shakespeare play. The students will be applying a variety of performance skills and will interpret different scripts.</p> <p>End of Cycle Assessment: Students will perform a script from Macbeth or Romeo and Juliet</p> | <p>Drama Club</p> <p>Whole Academy Musical</p> | <p>English: Shakespeare:</p> <p>History: History of Theatre styles.</p> | <p>Freedom of Speech Using the power of performance to voice the importance of freedom of speech Students explore basic Brechtian techniques to educate audiences on a topic of their choice, showcasing the power of freedom of speech.</p> <p>Assessment: Final: Freedom of speech performance</p> <p>Careers: Public Speaker, Politician, Lawyer, Playwright, Dramaturg, Theatre Practitioner, Stage Manager, Director and Producer,</p> | <p>Keyboard Club</p> <p>'One Body' Choir</p> <p>Rock Band Club</p> <p>Drama Club</p> <p>Whole Academy Musical</p> | <p>Art: Films and Festivals</p> | <p>Blood Brothers The students will explore the GCSE text Blood Brothers. They will begin to understand the key themes and characters, create devised and scripted performances, and design set and costumes.</p> <p>Assessment: Final: Blood Brothers performance</p> <p>Careers: Set Designer, Lighting Designer, Costume Designer, Playwright, Dramaturg, Theatre Practitioner, Stage Manager, Director and Producer.</p> | <p>Whole Academy Musical</p> | <p>Art: Set and Costume Design</p> <p>English: Analysing themes of a play.</p> |
| <p>Cycle 3</p> | <p>Ernie's Incredible Illusions Using a script as a stimulus for a scheme of work. Students will explore a range of characters and devise a variety of scenes both with and without scripts.</p> <p>End of Cycle Assessment Final: Scripted Performance</p> <p>Careers: Author, Playwright, Performer, Director, Producer, Audience interaction Officer.</p> | <p>Drama Club</p> | | <p>How long is forever? Exploring Stephanie Pearce's play text 'How long is forever' to raise awareness of online safety and the dangers of social media.</p> <p>Assessment: Final: Performance or design presentation</p> <p>Careers: Set Designer, Lighting Designer, Costume Designer, Playwright, Dramaturg, Theatre Practitioner, Stage Manager, Director and Producer.</p> | <p>Drama Club</p> | | <p>Building blocks of Devising Exploring the key devising skills required to respond to a stimulus in Drama. Students will devise and create their own performance.</p> <p>Assessment: Final: Performance</p> <p>Careers: Set Designer, Lighting Designer, Costume Designer, Playwright, Dramaturg, Theatre Practitioner, Music Engineer, Stage Manager, Director and Producer.</p> | <p>Year 9 GCSE Drama Club</p> <p>Drama Club</p> | |

Big Picture: To understand the key conventions and skills required to perform traditional styles of Theatre

Lesson 1 – An Introduction to different styles

Popular theatrical genres and styles include (but are not limited to):

- Theatre in education (TIE), Physical theatre, Epic theatre, Political Theatre, Comedy, Tragedy, Historical theatre, Melodrama, Commedia dell'arte, Musical theatre.

Work on the skeleton scripts using different emotional states – choose from these emotions.

Rehearse, perform & evaluate.

| | | |
|---------------|---------------|------------|
| Affectionate | Aggressive | Alloof |
| Angry | Arrogant | Bewildered |
| Bored | Business-like | Conceited |
| Disagreeable | Fearful | Friendly |
| Frustrated | Furious | Fussy |
| Giggly | Greedy | Happy |
| Hateful | Superior | Jealous |
| Jolly | Lazy | Lethargic |
| Light-hearted | Loving | |
| Mean | Nervous | Sad |
| Sarcastic | Shy | Sly |
| Suspicious | Tearful | Terrified |
| Unhappy | Unpleasant | Weary |

Lesson 2 : Exploring successful Musical Theatre:

Musical Theatre is a huge style of theatre that combines singing, music, dance and overexaggerated acting on stage. Within Musical Theatre, there are different specialisms in the industry, including:

- Set Design
- Costume Design
- Lighting Design
- Performer
- Make Up Artist
- Prop Maker
- Music Manager/ Editor

Lessons 3 and 4 – Exploring popular styles of theatre

Spy Film Preparation:

- Move furtively
- Dart from place to place
- Follow someone else in the room secretly – do not get caught. Look away if they spot you.
- Sidle up to people and whisper a greeting
- React to loud noises

Gangster Film Preparation: Think Bugsy Malone

Learn and practise the accent. Here is a recipe for instant gangster speak:

- 'you' becomes 'y'
- 'Th' becomes 'd', so 'the' becomes 'de'
- The letter 't' is either silent, as in 'doan' (don't), or it becomes a 'd', as in 'computer' (computer).
- The 'ew' sound becomes 'oo', ie 'new' becomes 'noo' as in 'Noo York'.

Wild West Preparation: Think Cowboys & Sheriffs

As you rehearse the text, remember:

Every entrance is dramatic – for example, when the baddie walks through the swing doors of the saloon
 Everyone has Wild West accents and a bow-legged walk
 Body language suggests that you are ready to draw a gun and shoot anyone at any time.

Romance Preparation:

As you rehearse the text, remember:

- When you speak every line, you are saying 'I love you'
- Gaze into the eyes of your 'beloved'
- Try acting jealous, passionately or very romantically.

Lesson 5: Assessment and showcase

Select your favourite style of theatre that you've explored to either perform or choose a design specialism in to present your research project.

TOP TIP: Always reflect on what your *artistic intention* with this piece is?

| Year 7 Cycle 2 Performing Arts | Drama – Drama Genres and Styles | Exploring different styles of theatre on stage |
|---|--|---|
| Big Picture: <i>To understand the key conventions and skills required to perform traditional styles of Theatre</i> | | |
| <p>Lesson 1 – Greek Theatre & The Chorus</p> <ul style="list-style-type: none"> • Performed in Amphitheatres • Seat roughly 15,000 people! • Greek chorus helped tell the story • Masks were used • Tragedy & comedy styles • Voice projection – IMPORTANT! • Performed outside! <p>The Greek Chorus were usually a group of between 12 and 15 actors (traditionally men) who would provide light entertainment in between scenes.</p> <ul style="list-style-type: none"> • Unison (talking at the same time) • Echo (repeating a line and then getting quieter) • Choral movement (doing a movement at the same time as your group) • Stage whisper (a whisper that can be heard by the audience) • Canon (where one person says a line and then another joins – like a domino effect) • Layering (layering up different sounds and words together to create texture) • Repetition (repeating the same thing) | <p>Lesson 3 – Understanding Shakespeare</p> <ul style="list-style-type: none"> • Performed at the Globe • 17th century • Shakespearean language (old English!) • Tragedy, comedy, history (genres) • Very popular! • A lot of phrases used today invented by him! <p>The Capulets & The Montagues in Romeo and Juliet Act 1 Scene 1</p> <p>How can we show tension and argument in a script?</p> <p>Tone of voice, volume of your voice and gesture can show anger and frustration.</p> <p>Fun facts about The Globe</p> <ul style="list-style-type: none"> • The original Globe theatre built in 1599 was destroyed by fire in 1613 • The second Globe (built a year later) was closed when it became a crime to attend the theatre! It was then demolished. • The third Globe (built in 1997) is what stands in London today. | <p>Lesson 4 - Showcase preparation</p> <p>You will decide which style of theatre you would like to present for your assessment showcase.</p> <p>Greek Theatre Chorus:</p> <ul style="list-style-type: none"> • Medea • Pandora’s Box <p>Shakespeare</p> <ul style="list-style-type: none"> • Romeo & Juliet • The Witches from Macbeth <p>You should pick the style of theatre you are most confident with to help you get the best grade!</p> |
| <p>Lesson 2 - Greek Theatre Showcase</p> <p>Showcasing our work helps us to develop our confidence to speak in front of a group people.</p> <p>Does your showcase include:</p> <ul style="list-style-type: none"> • A variety of Greek chorus techniques? • Voice projection? • effective use of the space? <p>What could you add to make your piece more creative?</p> | | |

Lesson 1 – Descriptive Music in the Baroque Era

Descriptive Music is any type of music that is composed to represent a mood or set a scene. You should be able to hear and describe lots of different musical elements and how they are used throughout a piece of music. In the Baroque era a famous composer called Vivaldi wrote 4 pieces of music that represent the different seasons.

Lesson 2 – The Classical Era

In the classical era, Beethoven wrote *Fur Elise*, one of his most famous pieces of music, which represented the sadness of losing a loved one. His melody is very catchy and memorable, and the key is minor to make it sound sad.

Lesson 3 – Creating the Harmony

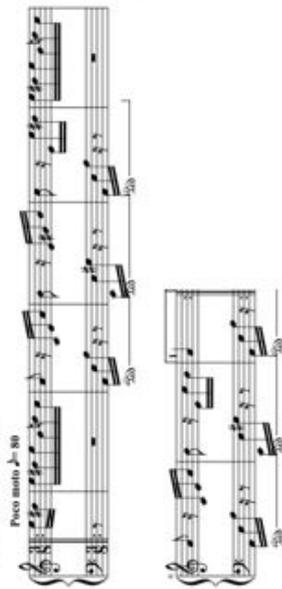

In the romantic era, music got more expressive and composers started experimenting more with the musical elements. Grieg wrote *In the Hall of the Mountain King* to represent trolls, gnomes and goblins.

Knowing your music

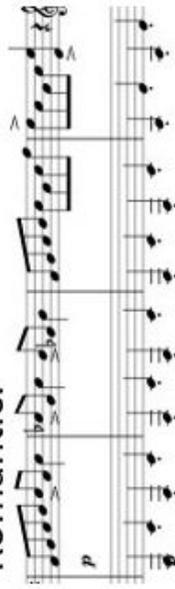

Baroque:

Classical:

Romantic:

Lesson 6 – Creating music for a mood

- Major** – music that sounds happy
- Minor** – music that sounds sad
- Texture** – the amount of layers used in a piece of music
- Consonant harmony** – notes that sound good together e.g. a triad
- Dissonant harmony** – notes that clash together e.g. a cluster chord
- Theme** – a short tune that represents a person or character
- Dynamics** – the volume
- Tempo** – the speed of the music
- Duration** – the length of the notes

Lessons 7 and 8 – How do you end a piece of film music?

You need create a piece of music that represents a story. You need to clearly show the changes in mood throughout your composition.

| | |
|----------------|----------------|
| Scene 1 | Scene 2 |
| Scene 3 | Scene 4 |

Lessons 4 and 5: Mid-Cycle Assessment and Feedback

For your mid-cycle assessment, you will be performing a piece of Baroque, Classical or Romantic music with your group, partner or solo. To prepare for this, you should make sure that you can play your chosen piece accurately and fluently throughout.

Lessons 9 and 10: End of Cycle Assessment and Feedback

For your end of cycle assessment you will be showcasing your finished descriptive music composition. You will be assessed on your musical content including your ability to change mood to suit what is happening in your story.

Year 7 – Cycle 2: Food

Production Planning

| Time | Method | Special points |
|---------------|--|--|
| 10.10 – 10.27 | <p>Fill pan just over half full with boiling water from the kettle.</p> <p>Bring water back to the boil and add the eggs. Boil the eggs cook for 12 minutes</p> <p>Place the eggs in cold water and let chill for 5 minutes. Wash up any equipment not needed.</p> | <p>Make sure water is rapid boil before adding eggs. Place eggs into the water using slotted spoon.</p> <p>Water should cover eggs.</p> |
| 10.27 – 10.30 | <p>Peel the eggs and slice lengthwise.</p> <p>Scoop out the yolks, using a teaspoon and place in separate bowl.</p> <p>Place the egg whites on extra plate.</p> | <p>Put egg shells in bin to avoid contamination.</p> <p>Take care not to damage the white of the egg, leaving neat hole from where the yolk was.</p> |
| 10.30 – 10.35 | <p>Add</p> <ul style="list-style-type: none"> 1 heaped tablespoon Mayo 1/2 teaspoon salt 1/2 teaspoon pepper 1 heaped teaspoon mustard to the yolks and mix until creamy. | <p>Make sure mix is thoroughly combined.</p> |
| 10.35 – 10.40 | <p>Scoop mixture into the egg whites and sprinkle with paprika powder.</p> | <p>Take care with presentation making sure 'deviled yolk' filling doesn't spill over onto the egg white.</p> |

SMSC
Work together and support each other in practical lessons. Ethical issues associated with food production.

Literacy
Use of correct terminology when writing production plans

Numeracy
Sequencing stages of making, timings and units of measurement

Accuracy – being correct and precise. You will show accuracy in your knife skills
Modify – to make changes to something. You will modify recipes to meet different needs.
Visual Appeal – how something looks. How you have used ingredients or presenting techniques to make your dish look attractive or appealing.

Key Words

Production Planning: Special points
 'Special points' are things you will do whilst making to ensure your product is both safe to eat and of a good quality. Some points might be: safe storage of ingredients ("keep ingredients in fridge until needed"), hygiene points ("wash hands after handling raw meat", dry with a paper towel), Food Safety: "Use a red chopping board to prevent cross contamination" "wash hands after handling raw meat" Quality Checks "have ingredients been cut evenly"

Starchy food (Carbohydrate)
Carbohydrates – only source of energy our brain recognises. This should make up just over a third of the food we eat. Choose higher-fibre, wholegrain varieties when you can by purchasing wholewheat pasta, brown rice, or simply leaving the skins on potatoes.

Stretch and Challenge Homework
 1 – research seasonings that could be used in the coating for chicken nuggets
 2 – Keep a food diary for a week how many simple carbohydrates are you having?
 3 – finish Carbohydrates poster

| | |
|-----------------------------------|--|
| Chicken nuggets planning sheet | |
| Chicken nuggets practical outcome | |
| Carbohydrates | |

Nutrients
Carbohydrates – only source of energy our brain recognises.
Protein – need for growth and repair. Found in animal products such as meat, eggs, milk, cheese.
Calcium – for strong bones found in milk, cheese, tofu and almonds.
Fibre – needed for good digestion found in wholemeal foods such as brown bread and also in fruit and vegetables.
Vitamins – needed in small amounts help with lots of functions such as immune system, healthy skin, blood clotting

Types of Carbohydrates

Starch (Complex carbs)

Breaks down slowly, providing longer lasting energy.

Eating too much carbohydrate can lead to weight gain and obesity. Obesity leads to health conditions such as heart disease and diabetes.

Eating too little carbohydrate means we won't have the energy to do day to day tasks and we will become tired easily. Over a period of time it will also lead to weight loss.

Sugars (Simple carbs)

Breaks down quickly, providing immediate energy, then a crash!

Year 7 Geography **Cycle 2: Rapid Rivers**

- The water cycle key terms:**
- **Evaporation** = water is heated and turns from liquid to water vapour
 - **Condensation** = the water vapour cools and forms clouds
 - **Precipitation** = any form of condensation that falls to the ground e.g. rain, snow, sleet
 - **Surface run off** = water running over a surface
 - **Ground water** = water held on or in the ground
 - **Transpiration** = the uptake of water by trees and plants.

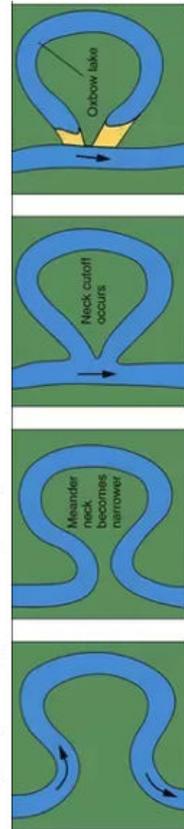

- Drainage basin key terms:**
- **Drainage basin** = the area of land drained by a river.
 - **Catchment area** = the area within the drainage basin.
 - **Watershed** = the edge of highland surrounding a drainage basin.
 - **Source** = The beginning or start of a river.
 - **Confluence** = where two rivers or streams join.
 - **Tributary** = a stream which joins a larger stream.
 - **Mouth** = the point where the river comes to the end, usually when entering a sea.

- Formation of a waterfall (Upper course)**
- 1) For waterfalls to form there needs to be hard rock on top of soft rock.
 - 2) The water flows over the edge eroding the soft rock underneath via hydraulic action and abrasion and creates a deep plunge pool below.
 - 3) The soft rock erodes more quickly, undercutting the hard rock.
 - 4) The hard rock is left overhanging and because it isn't supported, it eventually collapses.
 - 5) The fallen rocks crash into the plunge pool, leading to increased abrasion.
 - 6) Over time, this process is repeated and the waterfall moves upstream, carving out a steep sided gorge.

- Formation of an oxbow lake (middle course)**
1. A meander has the fast flowing water on the outside bend and the slow moving water on the inside bend.
 2. The outside bend erode via hydraulic action, and abrasion.
 3. There is less water on the inside bend, an increase in friction and a decrease in velocity. As the river has less energy, it deposits material so its course is changing.
 4. Over time, continual erosion and deposition narrows the neck of the meander.
 5. Often during a flood the river will cut through the neck of the meander.
 6. The river now runs on a straighter path.
 7. The fastest current will now be flowing in the centre of the river channel and deposition is more likely to occur beside the banks.
 8. New deposition seals off the ends and the cut-off becomes an ox bow lake that will eventually dry up, except during periods of very heavy rainfall.

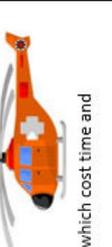

- Formation of levees (Lower course)**
Levees are raised river banks
- Levees occur in the lower course of a river.
 - Sediment that has been eroded further upstream is transported downstream.
 - When the river floods, the sediment spreads out across the floodplain.
 - When a flood occurs, the river loses energy. The largest material is deposited first on the sides of the river banks and smaller material further away.
 - After many floods, the sediment builds up to increase the height of the river banks, meaning that the channel can carry more water (a greater discharge) and flooding is less likely to occur in the future.

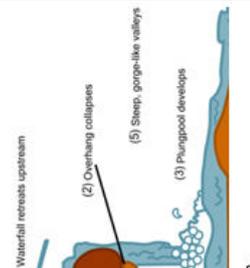

High Income Country (HIC) case study: Tewkesbury
Date: 20 July 2007
Location: Tewkesbury Gloucestershire
Causes:

- Heavy rainfall in June led to high water levels in rivers
- Two months' worth of rain fell in 14 hours on 20 July
- This water couldn't infiltrate the saturated ground
- Water entered both the River Severn and the River Avon quickly.

- Effects:**
- Two people died as an indirect result of the flooding.
 - 5,000 homes and businesses were flooded.
 - 48,000 homes were without electricity for two days.
 - 135,000 homes were without drinking water for approximately two weeks.
 - 825 homes were evacuated.
 - 10,000 motorists were stranded on county roads, including the M5 where many people remained overnight.
 - It is estimated that the flooding and water crisis cost the county of Gloucestershire £50 million.
 - 350,000 people in parts of Gloucestershire were left without clean water for 17 days.

- Responses:**
- RAF rescued people by helicopter
 - Emergency accommodation provided
 - Repairs had to be made after the damage which cost time and money
 - Insurance companies had to pay out on claims
 - The **flood defense scheme** was put in place
 - 34 new flood defences were built by 2008 providing protection to 30,000 homes
 - Since 2007 Severn Trent has spent more than £36million on new pipelines and flood defences around the water treatment works.
 - Environment Agency now holds flood prevention classes in areas at risk of possible future floods.
 - The county has set up a free flood-warning scheme and at least 73,000 people have signed up
 - The Environment Agency, Tewkesbury Borough Council and Gloucestershire County Council working together to clear out the ditches.
 - The cleared ditches absorb some of the floodwater, which increases the time it takes the floodwaters to breach the ditch's banks.

Formation of a waterfall (Upper course)

- 1) Waterfall retreats upstream
- 2) Overhanging collapses
- 3) Plungepool develops
- 4) Undercutting
- 5) Steep, gorge-like valleys

Formation of an oxbow lake (middle course)

1. A meander has the fast flowing water on the outside bend and the slow moving water on the inside bend.
2. The outside bend erode via hydraulic action, and abrasion.
3. There is less water on the inside bend, an increase in friction and a decrease in velocity. As the river has less energy, it deposits material so its course is changing.
4. Over time, continual erosion and deposition narrows the neck of the meander.
5. Often during a flood the river will cut through the neck of the meander.
6. The river now runs on a straighter path.
7. The fastest current will now be flowing in the centre of the river channel and deposition is more likely to occur beside the banks.
8. New deposition seals off the ends and the cut-off becomes an ox bow lake that will eventually dry up, except during periods of very heavy rainfall.

Global River: The Nile

Facts:

- The longest river in the world ,6,600 kilometers (4,100 miles)
- It runs through 11 African countries
- Its source is lake Victoria
- The river has two tributaries, the White Nile and the Blue Nile

Key words:

- Tributary a stream or river that flows into a larger stream or river or a lake. A tributary does not flow directly into a sea or ocean
- Delta an area of low, flat land shaped like a triangle, where a river splits and spreads out into several branches before entering the sea
- Drought-a long period of no rainfall and dry conditions

| Challenges | Opportunities |
|---|--|
| Population growth means water shortages | Excellent for agriculture- the majority of Egypt's farms are found along the Nile |
| Poor distribution of water resources means that several countries do not have adequate water supplies | Tourism -The source of the Nile River in Uganda has become an international tourism site attracting more than 1 million tourists each year |
| Heavy pollution means that the river water is contaminated | Fishing- Over 2000 fish farms located near the river which provide food |
| Climate change means that the river is now at risk of drought | Hydroelectric power generated by the Aswan Dam |

The Nile Delta

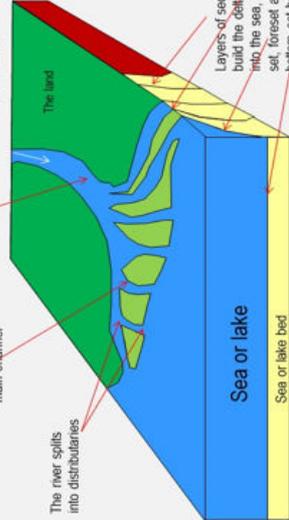

The formation of Deltas

Deposition is therefore encouraged as the hydraulic radius decreases and the river becomes less efficient, the biggest sediments are dropped first and the finest further away

River spreads out and slows down as it approaches the sea

This causes bars or islands of sediment to build in the middle of the main channel

The river spills into distributaries

By Rob Gamesby

**Year 7 History
Cycle 2:
Medieval England**

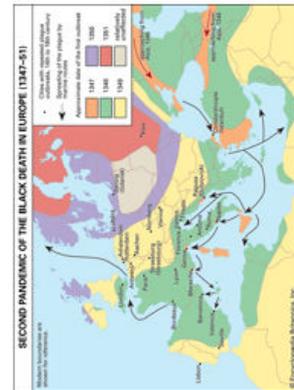

Add these to your glossary!

- Medieval** – The period in Europe between around 1000-1500 CE
- Feudal System** – A hierarchy (ladder) of power with the king at the top
- Tithe** – A tax paid to the church
- Archbishop** – The most important members of the church in England
- Roman Catholic** – Christians who believe the Pope is the head of the church
- Martyr** – Someone who dies for their beliefs
- Repent** – To ask for forgiveness
- Pilgrimage** – A journey to a place of religious importance
- Pious** – Deeply religious
- Crusade** – A war fought for religion
- Pope** – Head of the Catholic church
- Chivalry** – The moral and military code followed by Medieval knights
- Magna Carta** – Laws signed in 1215 that everyone, including the King, have to follow
- Plague** – A very infectious and deadly disease
- Pestilence** – A deadly disease
- Buboes** – Swellings under the armpits
- Miasma** – The idea that bad air causes disease
- Four Humours** – Liquids in the body people thought caused disease when unbalanced
- Revolt** – A violent uprising
- Poll Tax** – A tax that everyone must pay
- Primary Source** – Evidence from the time
- Secondary Source** – Evidence that is 'second-hand', based on primary sources

| | |

| <p>Enquiry 1: Church vs State: Who held the power?</p> | |
| <p>Weeks 1-2: The Medieval Church</p> <p>Why was the church so powerful?</p> <p>Payment of tithes Owned 1/3 of land Fear of Hell Peasants can't read or write</p> | <p>Impressive buildings Crowned the king Helped the sick</p> |
| <p>Weeks 3-4: The Making of Martyrs</p> | |
| <p>The Murder of Thomas Becket</p> <ul style="list-style-type: none"> In 1162, Henry II appointed his friend Thomas Becket to be Archbishop of Canterbury, hoping for more influence over the church Becket then became very pious and committed to his job Henry wanted to take the power of deciding punishments off the church, but Becket disagreed. They argued and Becket left the country. When Becket returned he excommunicated those helping Henry Henry got angry and cried "Who will rid me of this turbulent priest?" – his knights overheard this, and went to kill Becket On 29th December 1170, Becket was hacked to death at Canterbury Cathedral. Henry was horrified: he went on a pilgrimage to Canterbury, talking barefoot, and prayed at Becket's tomb He allowed monks to whip him to repent so that God - and the country would forgive him. | <p>The Crusades</p> <p>The Crusades were a series of invasions of the Middle East by Christian countries who wanted to take back 'holy cities' such as Jerusalem. In 1092, Pope Urban II promised Christians that their sins would be wiped clean if they joined the crusades.</p> <p>Ultimately the Crusades failed to create the Holy Land that was part of Christendom, but...</p> <ul style="list-style-type: none"> The Crusaders learnt about castle design and gunpowder Muslim scholars taught us about science and medicine. Western Europeans brought back many goods, such as lemons, apricots, sugar, silk and cotton and spices used in cooking. The Knights Templar The Crusades were expensive, and led to higher taxes |
| <p>Weeks 5-6: The Magna Carta</p> | |
| | <p>Some of the main points were:</p> <ul style="list-style-type: none"> No freeman shall be arrested or imprisoned without a proper trial. No person is above the law, including the king. The barons could choose who inherited their land, not the king. <p>The Magna Carta has inspired laws around the world to this day!</p> |

Enquiry 2: How did the Black Death change English society?

Weeks 7-8: The Black Death

The Black Death hit Europe in 1348, spread by fleas travelling along the Silk Road. As people didn't know what caused it, they blamed:

- Miasma
- The Four Humours
- God
- Magic

Symptoms included...

- Buboes
- Fever
- Coughing up blood
- Death

| Social | Political | Economic |
|---|---|--|
| Villages were abandoned 1/3 of Europe died | The Feudal System was weakened Church lost power | Wages (pay) rose as peasants could demand more |

To try and stop the spread of Black Death, fines were introduced for people caught dumping waste in the streets. Muckrakers were employed to remove the waste from the streets. Some people called flagellants thought the answer was whipping themselves to get forgiveness from God!

Weeks 9-10: The Peasants' Revolt

- 7th June:** Wat Tyler is appointed leader of the rebels in Kent.
- 7th - 12th June:** The Peasants Revolt march towards London.
- 13th June:** Many of the Peasants enter London and set fire to John of Gaunt's house
- 14th June:** A group of armed Peasants enter the Tower of London and execute the Kings Treasurer, The Archbishop of Canterbury and another senior official.
- 14th June:** Richard II meets Wat Tyler at Mile End. Tyler tells Richard II what the Peasants demands are. Richard agrees and signs charters granting the peasants the freedoms that they had demanded.
- 15th June:** An army of Londoners loyal to the King has been hastily put together. Tyler and his men meet Richard. Tyler makes more demands. The Mayor of London gets involved in an argument with Tyler. Tyler appears to wave something in the direction of the King and the Mayor stabs him, as do guards. 23rd June 1381 Richard II withdraws all of the charters that were agreed with Wat Tyler.
- 5th July:** 1500 rebels are executed.
- 13th July:** John Ball is captured. He is tried for treason the following day. Found guilty he was hung, drawn and quartered on **15th July 1381**

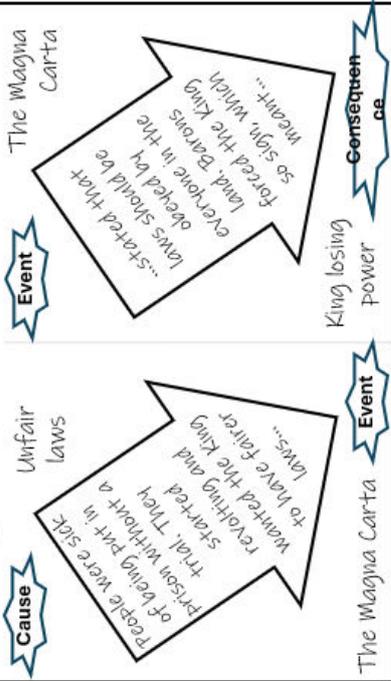

Causes

Those at the top of the **feudal system** were not happy that wages for peasants were rising after the Black Death. In 1351, King Edward II introduced the **Statute of Labourers:** a maximum wage. In 1380, a **poll tax** was introduced. At the same time, a preacher called **John Ball** started telling people that everyone was equal.

Think Like A Historian!

Cause and Consequence

A **cause** is a reason why something happens. **Try to focus on what links it to the event.** A **consequence** is something that happens **as a result**

Think Like A Historian!

Analysing Sources

What makes a source useful?

How useful is this source?

Content:

Find something relevant you spot in the source - a detail or quote.

What can you **infer** (figure out)?

People punished themselves to get God's forgiveness

Provenance:

Nature: What kind of source is it? A diary? Photo?

Origin: Who made it? Where? When?

Purpose: Why was it made? Would they be honest?

Year 7 PE– Skill development

Girls Football

- Control of the ball
- Creating space
- Dribbling
- Passing
- Turns
- Defending
- Pressing
- Providing cover
- Interception
- Small sided game play

Trampolining

- Straight jump
- Killing the bed
- spotting
- Tuck
- Pike
- Straddle
- Twisting movements
- Seat drop
- Routine development

Boys football

- Passing
- Control
- Dribbling/turning
- Shooting
- Positioning
- Small -sided games

Table Tennis

- Grip and stance
- Basic ball/bat control
- Push – Backhand/Forehand
- Drive – Forehand
- Serve – Backhand/Forehand
- Single game play

Netball skills

- Passing
- Footwork
- Movement
- Pivot
- Shooting
- Attacking
- Defending
- Positions
- Small -sided games

OAA/Problem Solving

- Social skills such as co-operation and confidence
- Map reading and orientation skills
- Leadership skills
- Problem solving
- Cardiovascular endurance and fitness requirements

Rugby

- Passing / handling
- Running and passing down a line
- Rucking
- Tackling
- Positioning
- Small -sided games tag and contact

Health Related Exercise (HRE)

- Warm up/cool down movements
- Circuit movements
- Tests for components of fitness
- Boxercise techniques
- Simple measurements of the body – heart rate

Year 7 Religion and Ethics - Cycle 2 Hinduism

| <u>Introduction to Philosophy, Religion and Ethics</u> <u>Topic 1 - Symbolism</u> | Completed | Completed | Completed | Completed |
|---|-----------|---|-----------|---|
| <p>1. What do we mean when we talk about inner and outer worlds? Inner - how we feel Outer - what we show to the world</p> <p>2. What is a symbol? This could be a logo or a sign. And</p> <p>3. & 7 What are symbolic actions or symbolic language? - Things that we do or say that give others information about us.</p> <p style="text-align: center;"><u>Topic 2 - Hinduism</u></p> <p>What do you already know about Hinduism? Which country is Hinduism the main religions? Why do families tend to have certain family gods?</p> <p>One God many forms - How many gods are there in Hinduism? Can Hinduism be referred to as a monotheistic religion? Why are Hindu gods used at different times?</p> | Completed | <p>4. Symbolic objects and their significance in everyday life We will look at how objects have meaning and what they symbolise to us and people we know.</p> <p>5. Why are symbolic objects in religion important? For example, what does the cross symbolise to Christians? Hindu Beliefs - How do Hindu beliefs differ from other world religions? How are Hindu beliefs seen in everyday life? How does a Hindu teenager keep his/her faith whilst still living in 21st Century Britain?</p> | Completed | <p>6. is symbolic clothing important in society and to religions? Clothing that tells you something about a person and what they do. This may even give a clue as to the type of person they are.</p> <p>Stretch and challenge -</p> <ul style="list-style-type: none"> If you would like to make a place of worship over the term, then this is an opportunity to show your talents. You will be able to incorporate different elements into the place of worship, as long as you can explain the symbolism attached to each element. Once the work is completed you will present your work and be peer assessed. The winning place of worship will then be judged across the year group. |
| <p>One God many forms - How many gods are there in Hinduism? Can Hinduism be referred to as a monotheistic religion? Why are Hindu gods used at different times?</p> <p>The Mandir - Why is the outside of the mandir built the way it is? What do the external elements symbolise? How is the mandir used? What is the layout of the mandir like inside and how does worship happen?</p> | Completed | <p>Caste - What is the caste system? Why shouldn't it exist in modern India but still does? How does the caste system relate to marriage? Hindu way of life - what is it like to be a Hindu in Britain today? What are the problems that may arise?</p> | Completed | <p>Homework - will be set by your classroom teacher <u>Assessment preparation</u> As we go through the two elements of this topic, test yourself using the key questions, as these questions will be asked in the end of cycle assessment. Make sure that you can give examples as well.</p> |
| <p>The Mandir - Why is the outside of the mandir built the way it is? What do the external elements symbolise? How is the mandir used? What is the layout of the mandir like inside and how does worship happen?</p> | | <p>Key words and terms: Topic 1 - Symbols topic - Inner world - what we are like on the inside, what we feel that may give away something about our outer world - the things we say and show the world about ourselves, eg if we wear a cross or a veil what does this tell others about our inner world? Hinduism topic - Hindu - a person who is a follower of Hinduism Monotheism - a belief in One God. Mandir - A Hindu place of worship (sometimes referred to as a temple). Puja - the name for worship in Hinduism Holi - A festival of colour and light, that remembers the triumph of good over evil Caste system - a class or group of people who inherit exclusive privileges or are perceived as socially distinct</p> | | |
